Discord in Fry Memorial Methodist Church Is Declared to Be at an End

CHANGE HAD BEEN EXPECTED.

Pastor and Congregation Hoped He Would Re Transferred, but Kansas City Conference Returned Him.

After some little discord in the ranks of Pactor Fry Memorial Course in Clifton Heights, because of a common teeling that the congregation and the paster, Doctor V. C. Evers, were not notarted in each other, all seems again to be running smoothly. There had been sumets of barermal dissenstone in the organization for some time. but when a Republic man the ted the "pillars of the church" systemas, he was told right and left that there was nothing of importance in the agitation, and that the relation of the congregation with their miner we altogether a private effair.

This sich in regard to the fruction was carned, however: The congregation had ignified, before the Annual Conference of the Methodist Episcopal Church met in Kansas Cita, some three weeks ago, that Doctor Evers was persona non grata. Doctor change. What had caused this mutual feeling poloody would say definitely. All asserted that Doctor Evers should high socialiv. One field intimated that he "wast't a worker," while another said she disliked him personally. But none gave any special objection to him and the expression most cenerally used was, "We wanted a change;

Theory Every himself said: "I wanted to be we this charge and the congregation wanted me to go. We all expected that the conference would not return me again, but ti did and so far as I know what difficulty there was is now settled and affairs are colng smoothly. There was a large attendnee at last Sunday's service, and no intireation of the dissatisfaction I had thought that Doctor J. J. Martin, president of Carleion College, at Farmington, Mo., would be placed here and that I would go there. Mrs. I. Hallock said: "There has been a little trouble, but it is all right now. There are still a lew sour-pots in the congregation, but there are always some persons among a large number of people who are

dissatisfied."

J. H. Higginbotham said that the difficulty did not amount to much only a desire for a change of ministers. He consumed "Since the Bishop saw fit to return Dactor Evers, we abide by the decision."

Ministers' Association meeting vesterday, the time being devoted to the report of the the time bring devoted to the report of the committee on the plan proposed for the order of Sunday services in the paper of ac Reverend Doctor B. P. Fullerton one week ago. The committee reported the consideration of a change of the Sunday school from the morning to the afternoon, and a union service, where the same is thought advisable.

In the discussion the Reverend Dector In the discussion, the Reverend Dector F. L. Ferguron took the position that the change proposed was too radical, and that, so far as his own church was concerned, was impractical. The Reverend Doctor M. C. Williams took a similar position, calling attention to the nonevangelistic spirit of the membership as the real secret of nonattendance upon the evening service. The Reverend Doctor J. F. Cannon said that the attendance was not always an infallible criterion of the value of a preaching service, and urged the education of the people as to the value of evangelistic services.

Doctor F. W. Speed said that one difficulty about the matter of church attendance was that the people were coming to think that the Lord's Day was not all for the Lord, and agreed with others as to the nonevangelistic spirit of many church mem bers. Doctor Fullerton called attention i the fact that the report only recommended the plan to the consideration of the official boards of the churches, and Dector Cam-non moved that it be "passed to record" with the understanding that this action be not construed as an indorsement of the plan by the association. Doctor Niccolls spoke in favor of the action, and it was unani-

The paper at the Christian ministers' accing was read by the Reverend Dector. H. Garrison on the topic, "The History I the Work of the Christian Churches of of the Work of the Christian Churches of the City." A general discussion followed. The association decided to hold a union communion service at the Central Christian Church next Sunday afternoon at 4 o'clock. The atrangement of details was left to the juster and the Official Board of that clurch. The Reverend F. O. Fannon was appointed to represent the association at e anti-wineroom crusade meeting a morial Hall to-night.

At the Southern Methodist preachers' meeting the total number of additions to the churches reported was twenty-two. The paper of the day was read by the Reverend M. T. Haw on "Church Music." The Reverend W. H. LaPrade, paster of Immanuel Church, stated that there would be revival services in his church during the next two weeks.

The Reverend Doctor W. W. Boyd read the paper at the Baptist Conference, and his theme was "Mosaism Its Own Witness." The writer first reviewed Kuhnen's evolutionary theory, and then took the position that the continuity of the Scriptures disposed of Kuhnen's theory. The writer gise declared that Mosaism was its own best interpreter. The paper was discussed also declared that Moraism was its own best interpreter. The paper was discussed by Doctors Ford, J. T. Jeinston, J. C. Arm-strong, the Reverend J. F. Herget and Mr. Williamson. It was decided to hold the junior B. Y. P. U. meeting at the Third Haptist Church on April 17. The Reverend Mr. Williamson of Kansas City and who is conducting special revival services at the Delmar Avenue Church, was introduced, as was also the Reverend Mr. Jarrow of East St. Leuis.

DEMOCRATS KEEPING QUIET. No Congressional Candidates in Two Districts.

Up to date very little is being said by the Democrats about probable congressional nominees in the Eleventh and Twelfth districts. No move has yet been made towards calling these conventions, although the Re-publicans may never their second their secon publicars have opened their campaign in publicars have opened their campaign in the Twelfth by nominating W. H. Horton. If any Democrat in the Eleventh District is scriously thinking of running for Congress he is keeping his intentions to himself. In the Twelfth there has been some talk about Rehert H. Kern, Seth W. Cobb and State Senator John W. Drabelle, but no one seems to be authorized to say that any one of these gentlemen will seek the nomination. Mrs. Ellen Brown, 45 years old, who says she lives at No. 267 Dailey avenue, was arrested yesterday afternoon in Sonnenfeld's millinery store, southwest corner of Broadway and St. Charles street, on complaint of Mrs. Nathan Fellheimer who lives at

W. J. Davis, who has represented Pike County two terms in the Lexislature, announces that he will not seek renomination. From a financial standpoint, he says the office does not pay, and, being a poor man, he deems it best to turn his attention to something more profitable than making laws for Missouri, in spite of Mr. Davis's warning, E. E. Campbell and Joe Tapley are seeking the honer of representing the county in the House. Perhaps they remember that Champ Clark won much of his fame as a member of the Legislature from Pike.

Pike County Man Withdraws.

Coffey Was Not Benten.

The friends of Matthew Coffey, who represented Schuyler County in the Legislature during the last two sessions, are amproved over the publication in a St. Louis paper that he was defeated for renomination by Dector J. T. Jones. Mr. Coffey was not a candidate for renomination, it has long been the rule in Schuyler County that

no Democrat need expect more than two terms of office. Having served two terms. Mr. Coffgy, recognizing this custom, declined to seek renomination. Leading Democrats from the county say there was no dissatisfaction whatever over his course in the Legislature. His successor has been a practicing physician for years, and has passed middle life. The fact that he was nominated by acclamation would indicate his popularity.

The negroes were entirely ig-nored. This they regard as an affront to the race and they are not slow in condemn-ing those responsible for this detellation. Another reason why the negro has a gradge against the managers of the banquet is that not a negro waiter was employed to carr the viands to the hungry banqueters There were 150 white waiters, more or less, engaged in the work, but not one negro. The negroes declare that the Republicans are always willing enough to receive their assistance on election day, but when there is a "job" with a pecuniary end to it they are slighted.

HEAVY TRADING IN CORN.

All Records Broken in Receipts of Cereal.

All records were broken in the receipts of corn at St. Louis yesterday. The enornous total of 509,000 bushels, or 638 cars, was cached. This is more than double the re-cipts for the entire month of April last car, and exceeds by 238,515 bushels the reipts for the corresponding day a year

result, it is estimated that there is a shortage of about a million and a half bushels
of May corn in St. Louis at present—that is,
head traders have sold that much corn
which they did not own, expecting to be
role to buy it back at lower prices in time
to deliver it on their May contracts. Buils,
however, have refused to "ring out" trades
und will insist on the delivery of the actual
orn, D. R. Francis, one of their leaders, is
and to have placed the amount of his purbases in Europe, and, of course, will demand the corn soid to him. In consequence,
the shorts have been scouring the country the shorts have been scouring the country for corn with which to fill contracts, and the success of their efforts is seen in the increasing receipts at this point.

Excepts of corn at St. Louis has week were L548 cars, as compared with 321 cars for the corresponding week in 1895, 742 cars in 1895 and 485 cars in 1895. Receipts of week is receipts were 129 cars, as compared with 55 cars for the corresponding week last year. So cars in 1898 and 95 cars in 1897. The increase in the receipts of cars in 1897. The increase in the receipts of cars has been even beavier than that of wheat 326 cars having been received last week, as compared with 12 cars for the corresponding week last year. 129 cars in 1898 and 114 cars in 1897.

For the week ending March 31, receipts of corn at St. Louis were L544 cars, as compared with 244 cars for the corresponding week last year.

This is partly due to the shortage in corn. but the principal reason is that buyers have been hurrying their grain to St. Louis in anticipation of the advance of 2 gents a shorts have been scouring the country

The district is composed of Monroe, Marion.

Shelby and Rails counties, and is overwhelmingly Democratic. Primaries will be
held in Monroe, April 14; Shelby and Marion.
May 15, and Rails, May 12.

hundred pounds on corn and 5 cents a hundeed on wheat, which goes into effect today from points in Kansas and Nebraska.

Another reason is that for the first time in
several years grain has been moving at several years grain has been moving at tariff rates, and no other points were given special advantages over St. Louis.

MAY DRAFT ROOSEVELT.

Republicans Need Him to Strengthen National Ticket.

REPUBLIC SPECIAL.

New York, April 9.-Governor Roosevelt is in danger of being "drafted" to serve as McKinley's running-mate on the Republican ticket. The Governor is anxious to attend the Republican National Convention in Philadelphia and has indicated his desire to be elected a delegate-at-large. His friends have urged him not to go to Phila-delphia as his presence in the convention delphia, as his presence in the co-will surely result in his nomination

vice presidency.

Mr. Roosevelt is undecided, but Senstor Hanna and other administration leaders are urging him to attend the convention. It is considered certain that if Governor Roosevelt does go to Philadelphia he will be nom-inated despite his off-repeated statement that he will under no circumstances accept a place on the national ticket; hence, the importunities of his friends that he remain at home.

"DAVID HARUM" MADE A HIT.

Rochester, N. Y., April 9.-The Lyceum Theater was packed to the doors for the first performance of "David Harum." with William H. Crane in the principal role, The production is a dramatized version by and M. W. Hitchcock of Edward Noves K. and M. W. Hitchcock of Edward Noves Westcott's famous novel, and is staged by E. E. Rose, and presented under the man-agement of Charles Frohman. From the opening scene, which depicts David Harum's house, with its verands, the barn and farming implements, lying about, till the finale, the good old-fashioned Christmas dinner, and the opening of the bottle of champagne, for which David must

A DAILY NUISANCE.

A Simple Remedy Which Will Interest Catarrh Sufferers.

In its early stages catarrh is more of a nuisance than a memore to the general health, but, sooner or later, the disease extends to the throat, bronchial tubes and even to the stomach and intestines.

Catarrh is essentially a disease of the mucous membrane, the local symptoms become ing a profuse discharge of mucus, stoppage of the nostrils, irritation in throat, causing of the nostrils, irritation in throat, causing coughing, sneezing, gaggling and frequent clearings of the threat and head.

The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treatment which removes the catarrial taint from the blood and the disappearance of the inflammation from the mucous surfaces.

A new remely which meets these requirements and wokh so far has been remarkably successful in curing catarrh is Stuart's catarrh. Tablets.

These tablets act upon the blood and mu-

Stuart's catarrh Tablets.
These tablets act upon the blood and mucous membranes only. They can hardly be called a secret patent medicine, as they are called a secret patent medicine, as they are such valuable remedies as composed of such valuable remedies as Sangumaria. Hydrastin, Eucalyptol and similar elemining antisepties, which cure be eliminating from the blood and mucous sur-

straint and the court and miceus surfaces the catarrhal poison.

Stuart's Catarrh Tablets are large pleasant-tasting lozenges, taken internally, allowing them to disselve slowly in the mouth; in this way they reach the threat, fauces and the outre alimentary canal.

If desired, they may also be dissolved in water and used as a disched in addition to water and used as a douche, in addition to the internal use, but it is not at all neces-sary to use a douche; a few of them dis-solved in the mouth daily will be sufficient.
